Quality Verification & Compliance

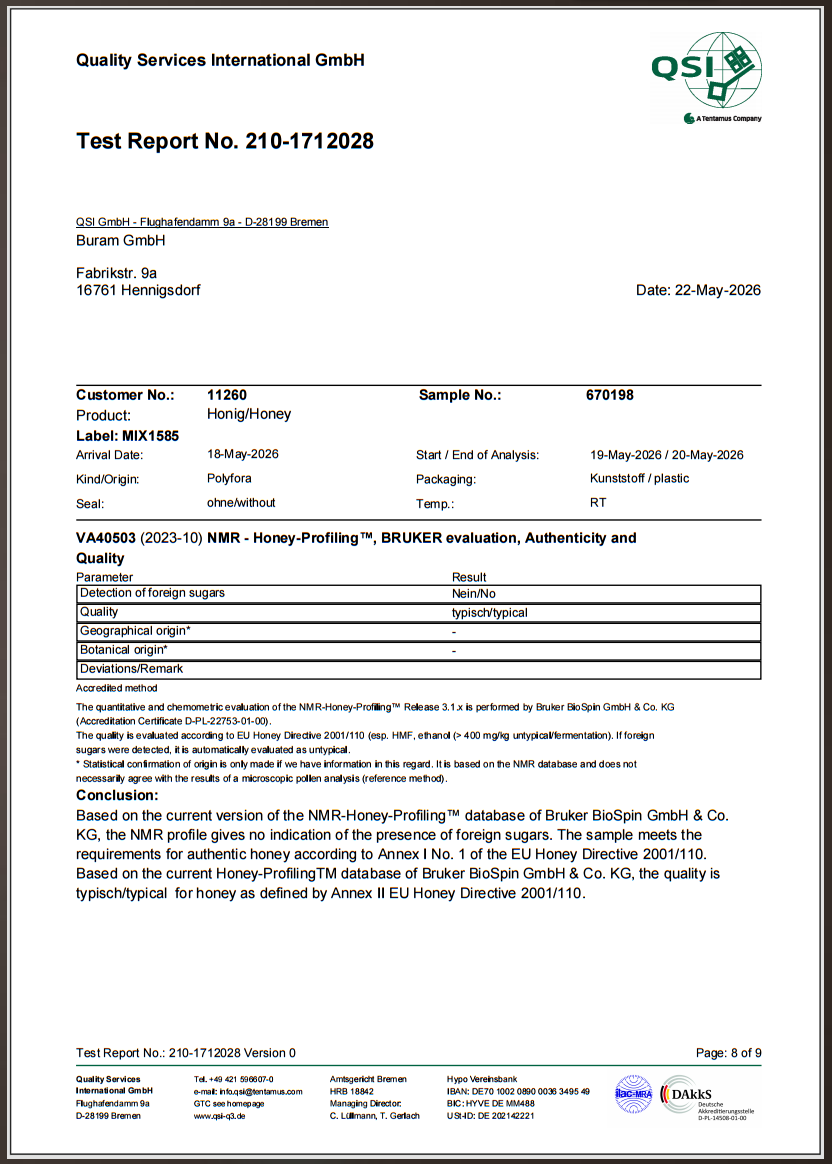

Every Batch Verified Before Release

✓ All incoming and finished honey batches are tested for authenticity, purity and regulatory compliance.

✓ Advanced analytical methods, including accredited NMR screening, are used to verify product integrity and detect potential adulteration.

✓ Testing protocols are aligned with the regulatory requirements of key export markets, including **China, USA, Canada, United Kingdom, European Union and Japan.**

✓ Products are released for export only after successfully meeting all applicable quality, authenticity and legal compliance criteria.

Date: 22-May-2026

Customer No.:	**11260**	**Sample No.:**	**670198**
Product:	Honig/Honey		
Label: MIX1585			
Arrival Date:	18-May-2026	Start / End of Analysis:	19-May-2026 / 20-May-2026
Kind/Origin:	Polyfora	Packaging:	Kunststoff / plastic
Seal:	ohne/without	Temp.:	RT

VA40503 (2023-10) **NMR - Honey-Profiling™, BRUKER evaluation, Authenticity and Quality**

Parameter	Result
Detection of foreign sugars	Nein/No
Quality	typisch/typical
Geographical origin*	-
Botanical origin*	-
Deviations/Remark	

Accredited method

The quantitative and chemometric evaluation of the NMR-Honey-Profiling™ Release 3.1.x is performed by Bruker BioSpin GmbH & Co. KG (Accreditation Certificate D-PL-22753-01-00).
The quality is evaluated according to EU Honey Directive 2001/110 (esp. HMF, ethanol (> 400 mg/kg untypical/fermentation). If foreign sugars were detected, it is automatically evaluated as untypical.
* Statistical confirmation of origin is only made if we have information in this regard. It is based on the NMR database and does not necessarily agree with the results of a microscopic pollen analysis (reference method).

Conclusion:
Based on the current version of the NMR-Honey-Profiling™ database of Bruker BioSpin GmbH & Co. KG, the NMR profile gives no indication of the presence of foreign sugars. The sample meets the requirements for authentic honey according to Annex I No. 1 of the EU Honey Directive 2001/110.
Based on the current Honey-ProfilingTM database of Bruker BioSpin GmbH & Co. KG, the quality is typisch/typical for honey as defined by Annex II EU Honey Directive 2001/110.
